Dear researcher/law student/legal scholar:

Indian Securitisation Foundation invites you to write original and unpublished research paper (5 pages to 15 pages) on any of the following topics, of relevance to securitisation/direct assignment and similar structured finance topics in Indian context, with a global flavour.

- Bankruptcy remoteness in Indian securitisation/DA transactions - Whether the rules in India, particularly under IBC, clearly exclude third party assets and cashflows, and therefore, we do not have concerns on true sale in India? Whether it is still open for a creditor, claimant or IP to contend that the transaction of assignment is not a true sale at all, and therefore, the asset or cashflows do not become third party asset/cashflows? The question of true sale examined in light of global principles, and Indian law/regulations.
- Whether the scope of TLE Directions includes non-consensual transfers that happen in situations such as enforcement of security interests? Whether the scope of the TLE Directions should really be limited to transfers that are done with the intent of trading in loans or having a secondary market in loans? Generally, about the scope and ambit
- Covered bonds and potential for structuring transactions of dual recourse in India. European secured notes' structure and potential for using similar structures in India
- Legality of credit risk transfer arrangements in India in light of the prohibition on synthetic securitisation under SSA Directions
